PROFILE

Architectural and Interior Designer with international experience delivering architectural, interior design and construction projects across Ireland and Argentina. Experienced in technical design, construction documentation, BIM-enabled workflows, joinery detailing, FF&E specification and architectural visualisation. I combine design thinking with advanced digital workflows and generative AI tools to communicate design intent, develop high-quality imagery and strengthen client presentations. Currently working as an Interior Architect at Coady Architects. I completed an MSc in Building Information Modelling (BIM) and Digital AEC at Munster Technological University in September 2026.

PROFESSIONAL EXPERIENCE

Interior Architect

July 2024 - Present

Coady Architects

- Deliver technical design packages for residential, healthcare and community projects.
- Produce detailed construction documentation using Revit and CAD.
- Develop FF&E specifications and interior design solutions.
- Support BIM-based project delivery and drawing coordination.
- Produce visualisations and presentations for client and stakeholder review.
- Participate in the design and delivery of residential care and housing projects throughout Ireland.

Interior Architect

October 2023 - July 2024

Reddy Architecture + urbanism

- Produced construction documentation and detailed design information using Revit.
- Developed joinery packages and interior architectural solutions.
- Supported multidisciplinary design teams during project delivery.
- Prepared visualisations and presentation material for client engagement.
- Assisted with retail and commercial interior design projects.
- Coordinated technical information across architectural packages.

Interior Architect

March 2021 - October 2023

Exhibit Design

- Developed layouts and design proposals for retail, hospitality and exhibition projects.
- Produced 2D and 3D visualisations for client presentations.
- Created detailed joinery and construction drawings.
- Prepared mood boards, design concepts and presentation packages.
- Worked closely with architects, graphic designers and project managers to deliver projects from concept to completion.

Architect / Interior Designer

2018 - 2019

Gio Architects | San Telmo, Buenos Aires

- Delivered residential, commercial and interior architecture projects.
- Managed external consultants and contractors.
- Led projects from concept development through construction documentation.
- Produced technical drawings, visualisations and client presentations.
- Coordinated project information and stakeholder communication.

EARLIER PROFESSIONAL EXPERIENCE

- | | |
|---|-------------|
| • Junior Architect Gustavo Iannatti Architect | 2013 - 2018 |
| • Internship Marcelo de los Santos Architect | 2012 - 2013 |
| • Internship Conorvial, construction company | 2011 - 2012 |

EDUCATION

MSc Building Information Modelling (BIM) and Digital AEC August 2025 – September 2026 | Completed

Munster Technological University, Ireland

Relevant areas: Digital Construction, BIM Data Quality and ISO 19650 Information Management.
Asset Information Requirements (AIR), BIM for Facilities Management and Digital Twin Technologies.
Common Data Environments and Information Delivery Planning.

BA (Hons) level 8 in Interior Architecture

2020 - 2022

Griffith College, Dublin, Ireland

Bachelor of Architecture

2007 - 2015

School of Architecture, Design, Art and Urbanism
University of Buenos Aires, Argentina

SELECTED AREAS OF EXPERTISE

Interior Architecture • Architectural Design • Healthcare Design • Residential Design
Technical Design Documentation • Construction Drawings • Joinery Detailing • FF&E Specification
BIM Coordination • Digital Construction • Project Coordination • Design Presentations • 3D Visualisation
AI-Assisted Architectural Visualisation • Generative AI for Design Communication • AI Image Generation and Editing

TECHNICAL SKILLS

Revit • AutoCAD • Vectorworks • Twinmotion • Enscape • SketchUp • Adobe InDesign • Adobe Photoshop
ChatGPT • AI image generation • AI-assisted visualisation workflows

ADDITIONAL INFORMATION

- Irish work experience since 2021.
- Fluent in English and Spanish.
- Eligible to work in Ireland.
- Strong interest in BIM Management, Digital Construction and Digital Twin implementation within the AEC industry.

CERTIFICATION

Virtual Reality for Architecture

At Zigurat Global Institute of Technology, Barcelona, Spain.
